## LegalOn Technologies, the Global Leader in AI Contract Review, Unveils AI Revise Tool and Subscription Plans for US Customers

LegalOn's AI Revise helps legal teams fix contract risks instantly with the first AI contract editor enhanced by expert legal knowledge.

April 24, 2023 08:00 AM Eastern Daylight Time

SAN FRANCISCO--(BUSINESS WIRE)--LegalOn Technologies, the global leader in AI contract review, unveiled the first AI contract editing tool enhanced by expert legal knowledge: "AI Revise." AI Revise combines detailed legal practical guidance with the latest GPT technology from OpenAI. Lawyers can direct AI Revise to make sophisticated contract revisions in seconds.

"We built AI Revise on top of LegalOn's AI Review and the proprietary legal content and guidance created by our team of experienced attorneys"

[Tweet this](#)

LegalOn also announced that it is now commercially available to all customers in the United States. The company launched an early access period in January 2023. LegalOn's subscription offerings will include AI Revise and many other time-saving and contract-strengthening features.

"AI will automate many of the most tedious parts of legal work," said Daniel Lewis, US CEO of LegalOn Technologies. "Our AI Review assists legal teams by spotting risks in third-party contracts and redlines and suggesting solutions

to make contracts stronger before signature. Now, we've taken a leap forward – AI Revise enables users to turn our suggestions into revisions."

"LegalOn is the best implementation of review technology I've seen," observed Hans Kim, General Counsel to startups and venture capital funds and former Head of Legal at Atrium. Hans Kim and more than 60 other attorneys and legal professionals across several dozen companies and law firms received early access to LegalOn's product beginning in January.

"I use LegalOn consistently," stated Alenda Martin, Senior Contract Manager at Turo. "The AI picks up critical issues quickly and accurately. The guidance and sample language are helpful to fix and negotiate those risks. And now, AI Revise feels like a major advance – it's really exciting to see."

Unlike general AI systems, AI Revise is purpose-built for legal contract review. "We built AI Revise on top of LegalOn's AI Review and the proprietary legal content and guidance created by our team of experienced attorneys," said Mike Contillo, LegalOn's Head of Product. "To ensure it is trustworthy and precise, our attorneys trained AI Revise with thousands of tests and countless hours of refinement."

"We focus on our products being usable on Day 1 for customers, with no setup or training of the AI required," says Daniel Lewis. "AI Revise delivers instant value because we've trained the AI to fix hundreds of nuanced contract risks for every contract type we cover, leveraging our practical guidance content. It's a great example of the unique value we provide customers with our combination of software and guidance."

"LegalOn is impressive," noted Josh Schmand, Associate General Counsel at ScribeAmerica. "The AI provided spot-on alerts to identify risky contract terms. The practice notes were excellent and helped me edit more efficiently."

AI Revise is one of many tools that will be within LegalOn's product suite. Coming out of the early access period, LegalOn's product includes many new benefits and features, such as:

- **More contract coverage:** instantly review Master Service Agreements, Purchase Agreements, and more with AI trained to spot hundreds of nuanced contract risks specific to each contract type and your negotiating position.
- **Edit and collaborate:** revise contracts and collaborate with colleagues within an in-browser editor.
- **Search clauses and contracts:** search prior contracts and templates to find on-point clauses as you draft and edit.

"LegalOn accelerates and enhances our contract review process by helping identify areas that require closer attention," said Chad Perlov, Director of Legal Affairs at OneNeck IT Solutions. "LegalOn's practice notes that guide us on risk and alternative language can also save time and research in the drafting process."

## シリーズごとのエクイティでの資金調達額

同ラウンドはSoftBank Vision Fund 2をリード投資家とし、Sequoia Capital ChinaとGoldman Sachsに加えて既存投資家であるWiL、みずほキャピタル、三菱UFJキャピタルが参画。「Global Unicorn Index 2021」によると、Sequoia、SoftBank、Goldman Sachsは、投資しているユニコーン企業数でそれぞれ1位、3位、5位だという。グローバルで投資を展開する投資家からLegalForceのポテンシャルが評価されたとの見方を角田氏は示した。

調達資金は、人事採用、開発強化、営業体制強化、マーケティング、新事業に投資する予定だという。

今回の資金調達を受け、角田氏は、新事業として海外進出を発表した。グローバルで投資を展開する企業の参画により、世界のリーガルテック企業と肩を並べる額の資金調達を実施するということで、自社のミッションである「全ての契約リスクを制御可能にする」を世界で実現することに向けて投資をしたいとの考えを述べ、「その中において、海外戦略は避けて通れない。日本初のリーガルテックあるいはソフトウェアを世界に問うていきたい」と続けた。

進出先としては、まずは英語圏を考えており、特に米国を中心に展開するという。「英語圏には1000社を越すリーガルテックのスタートアップ企業が存在するが、まだ黎明期であり可能性がある」とし、同社主力製品のLegalForceと同様のサービスが現時点では存在しないことを角田氏は理由に挙げた。

2023年3月までに市場調査を完了し、初期プロダクトを投入したいとしている。日本で現在展開している製品をそのままに英語化して投入するのではなく、米国の市場や契約実務に適合した製品を作るという戦略のため、市場調査から進めるという。

海外展開にあたりグローバル戦略部を設立し、JP Biard氏が部長に就任している。

LegalForceは、法務の知見に自然言語処理技術や機械学習などを組み合わせた製品を開発・提供する。機械知性研究部門の設置、京都大学との共同研究、開発専任の弁護士の在籍、法律事務所との提携を特徴としている。

同社が提供するサービスであるLegalForceは、案件受付や起案・審査といった契約締結までの業務をサポートする。LegalForceキャビネは、契約書の期限や権利・義務といった内容面を含めた契約締結後の管理を効率化する。

LegalForceは2019年に正式版がリリースされ、2022年3月末時点で導入企業数が2000社を超えている。LegalForceキャビネは2021年に正式リリースされ、2022年6月には導入企業が450社を超えている。

角田氏は同社の強みとして、このような実績に加え、法的知見、自然言語処理技術、データ量を必要とする「高い参入障壁」、契約業務のうち案件受付や起案・審査、管理といった部分で事業を展開する企業の少なさによる「未開拓な市場」を挙げた。

# LegalForce raises 13.7 billion yen in series D round—also reveals overseas expansion

LegalForce, which provides the contract screening platform “LegalForce” and the artificial intelligence (AI) contract management system “LegalForce Cabinet”, announced on June 23 that it will raise a total of approximately 13.7 billion yen in Series D funding and expand overseas.

With this funding, the total amount raised is 17.9 billion yen, which is relatively large in the legal tech field, according to Nozomu Tsunoda, President and CEO of LegalForce. It is said that it is a scale that ranks higher than North American companies that are investing in the same area.

### シリーズごとのエクイティでの資金調達額

The round was led by SoftBank Vision Fund 2, with participation from existing investors WiL, Mizuho Capital and Mitsubishi UFJ Capital in addition to Sequoia Capital China and Goldman Sachs. According to the "Global Unicorn Index 2021", Sequoia, SoftBank and Goldman Sachs rank first, third and fifth respectively in terms of the number of unicorn companies they invest in. Mr. Tsunoda expressed his view that the potential of LegalForce was highly evaluated by investors who invest globally.

As for where to expand, the company is considering English-speaking countries first, with a particular focus on the United States. “There are more than 1,000 legal tech startups in the English-speaking world, but it is still in its infancy and there is potential,” said Mr. Tsunoda, noting that a service similar to the company’s main product, LegalForce, does not currently exist. mentioned for the reason.

The company hopes to complete market research and launch initial products by March 2023. The strategy is to create products that are compatible with the US market and

contract practices, instead of simply translating the products currently available in Japan into English and launching them.

A global strategy department was established for overseas expansion, and Mr. JP Biard has been appointed as the general manager.

LegalForce develops and provides products that combine legal knowledge with natural language processing technology and machine learning. It is characterized by the establishment of a machine intelligence research department, joint research with Kyoto University, the enrollment of lawyers dedicated to development, and partnerships with law firms.

LegalForce, a service provided by the company, supports operations up to contract conclusion, such as project acceptance, drafting and review. LegalForce Cabinet streamlines post-contract management, including contract deadlines, rights and obligations.

LegalForce was officially released in 2019, and as of the end of March 2022, more than 2,000 companies have introduced it. LegalForce Cabinet will be officially released in 2021, and by June 2022, over 450 companies have introduced it.

In addition to this track record, Mr. Tsunoda says that the company's strengths are its "high barriers to entry" that require legal knowledge, natural language processing technology, and data volume, as well as the acceptance, drafting, examination, and management of contract work. He cited an "untapped market" due to the small number of companies operating in the region.

## Letter Of Protest (LOP) Memorandum

**Date:** May 26, 2023

**To:** Examining Attorney -

**From:** John Dalier  
Attorney Advisor  
Office of the Deputy Commissioner for Trademark Examination Policy

**Subject:** Letter of protest concerning U.S. Application Serial No. 97799088 for the mark LEGALON TECHNOLOGIES

Upon consideration of evidence included with a letter of protest filed before publication of the above-referenced mark, it has been determined that some of the evidence is relevant to the following ground(s) for refusal and/or requirement(s):

Possible likelihood of confusion under Trademark Act Section 2(d) with U.S. Registration Nos. 5642937, 4346898, and 4227650.

U.S. Registration Nos. 5642937, 4346898, and 4227650 are available in the XSearch database and additional evidence as to the relatedness of the goods and/or services at issue is attached for your consideration. Please review and determine whether to issue a refusal or make a requirement. 37 C.F.R. §2.149(d)(1); TMEP §1715.02.

NOTE: The consideration of a letter of protest filed before publication is not a legal determination by the USPTO of registrability, nor is it meant to compromise the integrity of the ex parte examination process. It merely serves to bring the submitted evidence to the attention of the examining attorney, who determines whether a refusal or requirement should be raised or ultimately made final. *See* 37 C.F.R. §2.149(d)(1).

## About This Report

This report documents a thorough analysis of the Internet domain name "**LegalonTechnologies.com**". It draws on the extensive DomainTools dataset and aims to deliver a comprehensive view of the domain's ownership profile, key historical events and technically linked domain names.

All data in this Report is, or was, freely available through standard Internet DNS and query protocols. DomainTools has not altered the data in any way from its original form, except in certain instances to format it for readability in this Report.

Data from DomainTools is presented as-is, and as captured from the original source. We make no representations or warranties of fitness of any kind.

## About DomainTools

For over 20 years, DomainTools has been the most popular domain research service on the internet because we have the most comprehensive coverage of generic and country code Top Level Domains. We have also collected and stored Whois and related hosting/DNS data to provide the most complete historical records in the industry.

DomainTools helps our users turn threat data into threat intelligence. We can help you connect indicators from your network, including domains and IPs, with others among the nearly 380 million active domains we track, leveraging over 13 billion DNS-related data points to build a map of "who's doing what" on the Internet. Fortune 100 companies, global government agencies, and leading security solution vendors use DomainTools as a critical ingredient in their threat investigation and mitigation work.

Reach us at [memberservices@domaintools.com](mailto:memberservices@domaintools.com) if you have any questions about this report.

## Ownership History

### Whois History for LegalonTechnologies.com

DomainTools has 2 distinct historical ownership records for LegalonTechnologies.com. The oldest record dates Aug 20, 2022. Each record is listed on its own page, starting with the most recent record. The date at the start of the section indicates the first time we captured the record. The website screenshot, when available, will be the image captured as close as possible to the record date.

### About Whois History

DomainTools takes periodic snapshots of domain name Whois records and stores them for subsequent analysis. The database contains billions of Whois records across hundreds of millions of domains, dating back in some cases to 2001.

## Hosting History

DomainTools tracks changes to a domain name's IP address, name server and registrar. These events can be useful signals that may indicate more macro events, including: domain name sales, transfers or deletions; taking a site live with new content; or a change in registration or hosting profile.

### Registrar History

Date	Registrar
Aug 19, 2022	<a href="#">Amazon Registrar, Inc.</a>

### Name Server History

Event Date	Action	New Server	Previous Server
Apr 21, 2023	Transfer	awsdns-00.org	awsdns-55.org
Aug 21, 2022	New	awsdns-55.org	-

### IP Address History

No records found for this domain.

## Screenshot History

DomainTools captures snapshots of website homepages on regular intervals. This content is useful for researchers to understand how a domain was used at various points in time. Due to the relatively high storage costs of screenshot data, the coverage of screenshot histories is in most cases not as thorough as Whois or hosting data, and this is especially true for dates early in a domain's history.

No records found for this domain.

This report includes 0 records from Aug 19, 2022 to Apr 21, 2023.

## Connected Domains

### Shared IP Address

DomainTools uses proprietary techniques to discover other domain names that are hosted on the same IP address (web host) as LegalonTechnologies.com. This is a sample of up to 100 randomly-selected domains from that dataset. Access to this data provides context in cases where knowing associated domain names has value.

The exhaustive list of connected domains by IP address is available in the Reverse IP product at DomainTools.com.

Domain	Created	Registrant
--------	---------	------------

## Shared Name Server

DomainTools uses proprietary techniques to discover other domain names that are hosted on the same name server as LegalonTechnologies.com. This is a sample of up to 100 randomly-selected domains from that dataset. Access to this data provides context in cases where knowing associated domain names has value.

The exhaustive list of connected domains by name server is available in the Name Server Report product at DomainTools.com.
